## HIPS Child Exploitation Webinar: “Child Exploitation – As a Health Professional, What Do You Need to Know?”

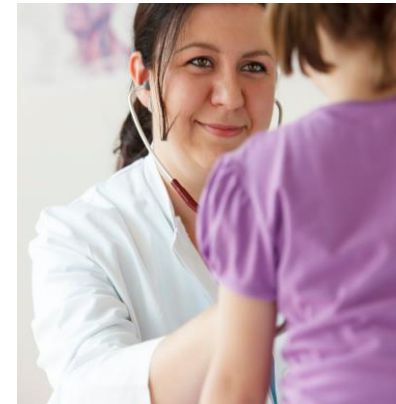

**Date(s):** Wednesday 17 January 2024 09.30 – 11.00

**Target audience:** All health professionals

**Intercollegiate Training Level:** Level 3

### **Course description:**

Child exploitation takes many forms and is a significant issue both locally and across the UK. This webinar is designed **specifically for health practitioners in Hampshire, the Isle of Wight, Portsmouth and Southampton** and looks to develop understanding and awareness as to the different and evolving types of exploitation that children may experience, as well as seeking to empower health professionals to recognise and respond to any risk factors they may identify. This session will offer further information on the specific risk assessment tools that are available to health practitioners, including when to use them, how to appropriately act on findings and how to work with multi-agency partners to support the child.

### Learning outcomes:

- Increase awareness and understanding of different types of child exploitation.
- Develop skills in recognising the signs of exploitation in children.
- Consider the appropriate response of health practitioners when risks and indicators of exploitation in children are identified, including how to utilise the skills and expertise of multi-agency partners.
- Explore the specific exploitation risk assessment tools available to health practitioners to support the assessment and identification of risk.
